MISSISSIPPI STATE UNIVERSITY
COLLEGE OF ARCHITECTURE,
ART AND DESIGN

INVISION

offers an exciting, intensive, one-week summer program to introduce students to majors in the studio fields of art and design. The program, led by Department of Art faculty and students, provides an opportunity for talented high school age students (16 and above) and incoming college freshmen to experiment and learn about majors and careers in the professional art world. You'll have the opportunity to work and socialize with other students from diverse backgrounds interested in making and talking about art.

STUDIO CLASSES

Students will have full days that include fundamentals of drawing and design, building with three dimensional materials and computer art applications, as well as exciting classes introducing students to screen printing, bookmaking, and experimental art forms. At the end of the program students will exhibit their work at the Visual Arts Center Gallery. The exhibit will be open to the MSU community, family and friends.

WHY BECOME AN ARTIST?

Throughout the week faculty and professionals in the visual and design fields, such as sculptors, graphic designers, illustrators, interior designers, fashion designers, and landscape architects will engage students and discuss creative career opportunities.

CULTURAL AND SOCIAL ACTIVITIES

Students will be exposed to an array of cultural and social activities such as: Artist Lecture Series, gallery exhibitions, movie nights, and field trips.
